ST1-C 110VAC

GBA ST1-C 110VAC

The popular Global Bill Acceptor, GBA, is a widely distributed and accepted bank note reader, which is renowned for its simplicity, reliability and capacity to accept a wide range of world currencies.

The GBA ST1-C 110VAC is a versatile, multi-orientation bank note reader which is designed for those compact applications that require direct 110VAC connectivity. It also has minimal height clearance in either an upwards or downwards note stacking orientation. It can be used in any 110VAC application with notes up to 70mm in width.

With its technologically advanced “Sense Technology” note validation platform, secure note cassette and internalized connections between upper and lower housings, the ST1-C is a sleek, compact and affordable solution for its market place.

Key features:

- A wide range of interfaces including : Parallel, Pulse (relay), NISR and BSCP Serial, ccTalk.
- Accepts up to 32 notes, in 4 directions (max note width 70mm)
- Illuminated, flashing note guide as standard
- Stylish fascia
- Internal connections between housing components
- Single Note Escrow
- FLASH download capabilities
- Sensor auto-calibration
- Push-button, on board diagnostics
- Secure, lockable (optional) removable 300 and 600 note cassette
- Comprehensive GBA Talk software support package
- Simple access to the internal ST1-C 110VAC note path for maintenance
- UL approved

The GBA ST1-C 110VAC Compact Stacker has wide ranging applications in markets requiring compact, simple and reliable note stacking solutions.

Support

Backed by dedicated teams of research and development engineers, sales professionals and support staff, the GBA product is our commitment to a vision of product excellence and customer satisfaction.
